La storia della Fratelli Frattini inizia nel 1958 in un laboratorio nei pressi del Lago d'Orta, incantevole località italiana inserita tra il verde delle Alpi e i boschi piemontesi. Questo consente di avere cura di ogni prodotto e seguire da vicino tutte le fasi della sua lavorazione supportata da moderne tecnologie, per creare prodotti di qualità e design.

FINITURE Finishing - Finitions - Acabados - Oberfläche

IT Le finiture dorata e ottonata sono ottenute grazie ad uno speciale processo che, in alcuni casi, viene effettuato manualmente. La presenza di eventuali disomogeneità nelle sfumature non rappresenta quindi un difetto di produzione, bensì un effetto proprio del particolare tipo di lavorazione artigianale.

EN The gold and bronze are obtained through a special stage that in some cases is hand made. The presence of some mixed shaded surfaces is the desired effect of great value and not a production defect being a craftsman work.

FR Les finitions dorée et laiton sont obtenues par un travail spécial dans quelque cas effectué à main. Des inhomogénéités dans les mélanges ne sont pas de défauts plutôt l'effet du type propre de travail artisanal.
